

PALADUGU SHASHIPRAKASH

PYTHON FULL STACK DEVELOPER

Warangal, Telangana | 9347074726 | shashiprakash.paladugu@gmail.com | [LinkedIn](#) | [GitHub](#)

CAREER OBJECTIVE

Python Full Stack Developer with hands-on experience building complete web applications and automation tools, from responsive front-ends to Python-powered back-ends and test automation frameworks. Looking to contribute technical skill, problem-solving ability, and the discipline gained as an NCC cadet to a team building real-world software.

TECHNICAL SKILLS

Languages: Python, JavaScript, SQL

Front-End: HTML, CSS, JavaScript, React.js

Back-End & Frameworks: Python, LangChain

Databases: MySQL

Testing & Automation: Selenium, Pytest, API Testing (Requests)

AI / LLM Tools: Groq API, Prompt-based Task Routing

Tools & Platforms: Git, GitHub, Streamlit Cloud, XAMPP

PROJECTS

AutoFlow AI — Intelligent Task Automation Agent

Python, LangChain, Groq LLM, Streamlit, DuckDuckGo Search

- Built an AI agent that interprets plain-English instructions and automatically routes them to the correct task: web search, document summarization, or email drafting.
- Implemented LLM-based task classification to dynamically select the right agent for each user request.
- Integrated free web search, PDF/text summarization, and automated email drafting and sending into a single Streamlit dashboard.
- Deployed live on Streamlit Cloud using a 100% free, open-source stack.

GitHub: <https://github.com/shashiprakash833/autoflow-ai>

Automation Testing Framework — UI + API + DB

Python, Selenium, Pytest, MySQL, Requests

- Designed an end-to-end test automation framework combining UI automation, API testing, and backend database validation for a PHP web application.
- Implemented the Page Object Model with a BasePage class for maintainable, reusable test code.
- Used explicit waits to improve test stability and reduce flaky test failures.
- Generated HTML test reports with automatic screenshot capture on test failure for faster debugging.

DBOX (Galoba) — Diet Food Delivery Platform

React, MySQL, HTML

- Built a food delivery website for fitness-focused customers, featuring category-based menu browsing (high protein, salads, keto, and more).
- Developed a responsive front-end with React and a MySQL-backed catalog for meal categories and items.
- Deployed the site live for real public use.

EDUCATION

B.Tech

2022 – 2026

Chaitanya Deemed To Be University | CGPA: 9.0

Senior Secondary Education

Completed 2020

St. Peter's Edu School | Central Board of Secondary Education | 78%

STRENGTHS

Leadership & discipline (NCC training) | Time management | Problem-solving under pressure | Active listening & articulation

AREAS OF INTEREST

Python programming & automation | Database management (SQL) | Web development & testing

HOBBIES

Football | Ex-NCC Cadet | Obstacle course training and physical fitness

DECLARATION

I hereby declare that all the details furnished here are true to the best of my knowledge and belief.
